

Employee of the Quarter – 3rd Quarter 2009 Darly Andre, Residential Services Manager

Darly Andre has done a magnificent job this quarter. She has successfully transitioned one of our individuals from their apartment to a CTH. This individual was struggling with an array of issues until Darly arrived and stabilized her life. Also, this quarter, Darly helped one of our other individuals achieve a life time dream of moving and retiring to California. Darly was able to work with various resources to help move this individual to California. The individual calls every once and awhile to say how happy

she is in her new place. She has helped another individual who struggled with her confidence and desire to work with others by helping her become a very strong and independent women. In the past this individual would reject activities and will now exercise, and will independently go for walks or to the YMCA. The client will occasionally grab the employee and give her a hug which is rarely seen with anyone else. Lastly, if you want to reach any of the people she supports you can now call their cell phones because I doubt they will be home.
